ENSE 271 · GROUP B · CHECKPOINT #2

APSS hi-fi prototype: usability session

With Erin Hidlebaugh (AIDS Programs South Saskatchewan) and Dr. Tim Maciag

Wednesday, October 21, 2026 · 11:45 to 12:00

Jacob Liu · Mohammed Saad Shaik · Aubin Chriss Izere · Jesse Ichibor

HOW TODAY WORKS

Two tests at the same time, one shared screen

A

Erin tests on laptop A

The prototype is already open on your laptop.

B

Tim tests on laptop B

The prototype is already open on your laptop.

C

This screen

Shows each task and question so we all stay on the same step.

0:00	1:00	2:00	9:30	13:30
Welcome and how it works	A quick look at the site	Six short tasks, about a minute each (four on the laptop, two on your phone)	Four quick questions	Thank you

BEFORE WE START

We’re testing the design, not you

1

Think aloud as you go, and say “done” when you finish.

2

You can click but not type. Clicking a search box shows sample results.

3

Links that leave APSS open a grey stand-in page.

4

After each task, rate it from 1 (very hard) to 5 (very easy).

5

If something is hard, that’s ours to fix. There are no wrong answers.

6

We take notes only. Nothing is recorded on video or audio.

BEFORE THE TASKS

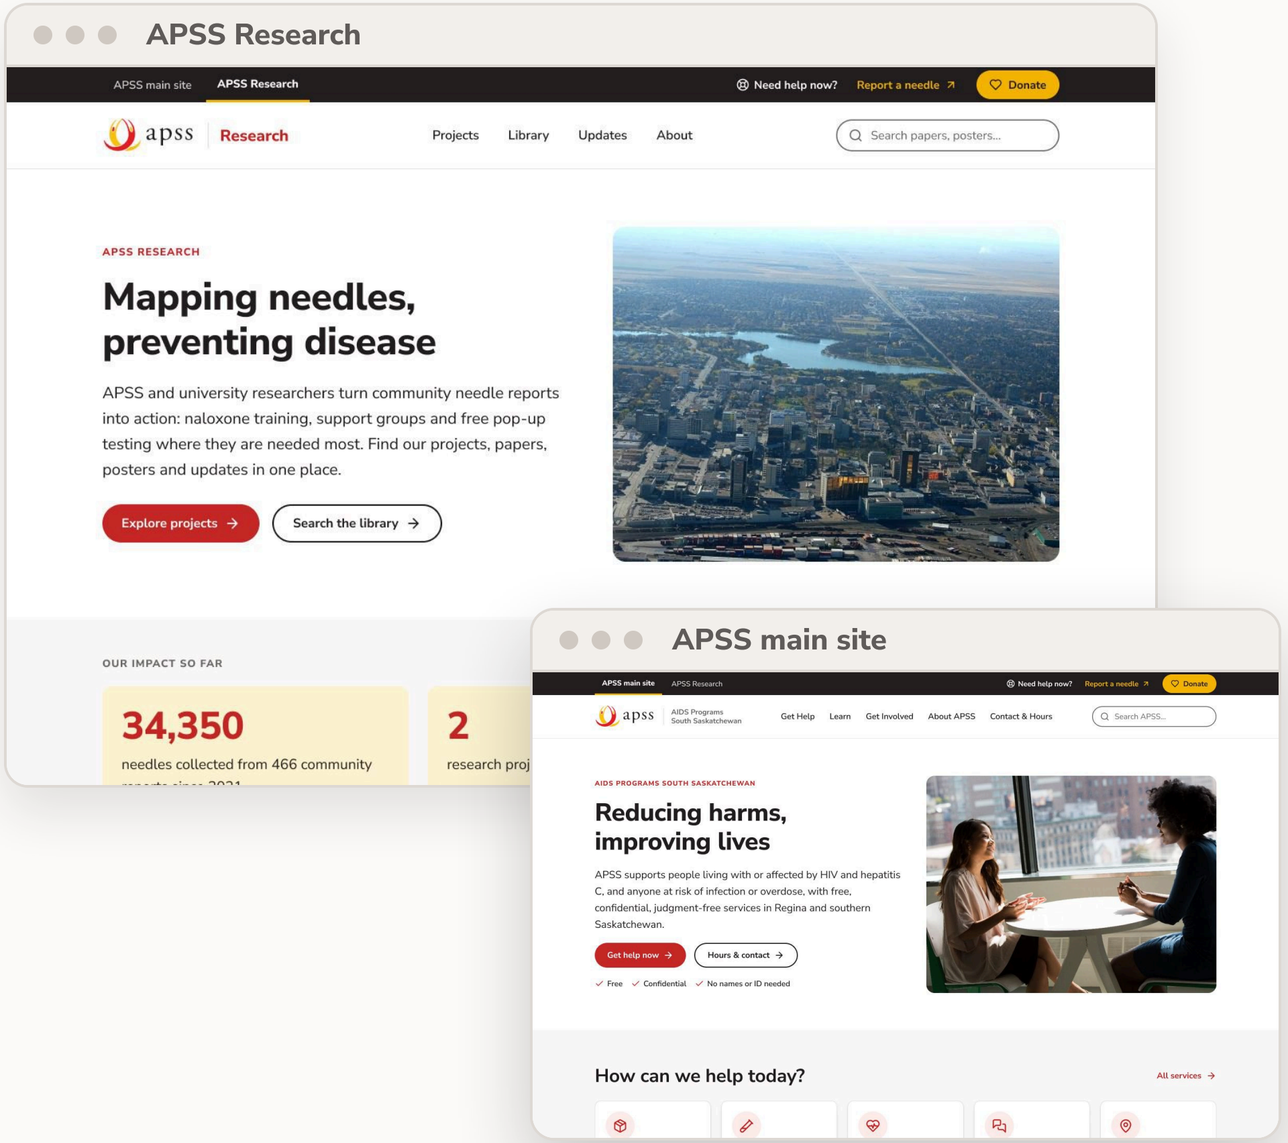

A quick look at the site

About one minute to look around.
No tasks yet.

- The research site, where most of today's tasks happen
- The main APSS site it links to

Open the research site ↗

Open the main APSS site ↗

TASK 1 OF 6 On the laptop

“A funder asks which APSS research project is still running. Find it and tell us when it ends.”

STARTS ON

Research home

Open start screen ↗

Say “done” when you finish, then rate the task from 1 (very hard) to 5 (very easy).

TASK 2 OF 6 On the laptop

“You just saw a discarded needle in a park. Report it from here.”

STARTS ON

Mapping Needles, Reducing Harm (project page)

Open start screen ↗

Say “done” when you finish, then rate the task from 1 (very hard) to 5 (very easy).

TASK 3 OF 6 On the laptop

“You’d like to go to the next free pop-up testing event. Find out when and where it is.”

STARTS ON

Research home

Open start screen ↗

Say “done” when you finish, then rate the task from 1 (very hard) to 5 (very easy).

TASK 4 OF 6 On the laptop

“APSS published a paper in the Harm Reduction Journal in 2026. Find it and open it on the journal’s website.”

STARTS ON

Research home

Open start screen ↗

Say “done” when you finish, then rate the task from 1 (very hard) to 5 (very easy).

TASK 5 OF 6 **On your phone**

“On your phone, find the number to call APSS for help.”

1. Open your phone’s camera
2. Point it at the code
3. Tap the link that pops up
4. If a cookie notice covers the page, tap X

No phone? Open it on the laptop ↗

Say “done” when you finish, then rate the task from 1 (very hard) to 5 (very easy).

Scan with your phone camera

Opens a project page on your phone

TASK 6 OF 6 **On your phone**

“On your phone, find out which days APSS is open, and what time it opens and closes.”

1. Open your phone’s camera
2. Point it at the code
3. Tap the link that pops up
4. If a cookie notice covers the page, tap X

No phone? Open it on the laptop ↗

Say “done” when you finish, then rate the task from 1 (very hard) to 5 (very easy).

Scan with your phone camera

Opens the APSS home page on your phone

QUESTION 1 OF 4

What three words describe the research site? How does it compare with the current research page?

QUESTION 2 OF 4

Was anything you expected to click not clickable, or did anything take you somewhere unexpected?

QUESTION 3 OF 4

One site or two?

A

One combined site

Research is a section inside the main APSS website.

B

Two linked sites

A separate research site, linked from the main APSS site. This is what you just tested.

Which would work better for APSS and the people who use it?

QUESTION 4 OF 4

Are there any improvements you would suggest? What are they?

Thank you, Erin and Tim
